Historical Data
AT YOUR FINGERTIPS

CherryRoad introduces the Historical Filing Cabinet. The Cloud solution for all your legacy data challenges.

<u>Are you struggling with:</u>

- Restrictions with loading years of history from a legacy system to an emerging cloud solution
- Laws requiring you to maintain years of financial and HR related data
- Excessive costs related to maintaining legacy systems
- Multiple historical systems and you need ONE centralized repository
- Decommissioning older systems

Learn how easy and secure it is to use CherryRoad's Historical Filing Cabinet (HFC) for storing and accessing your historical data. Our HFC solution simplifies the migration process, helps you avoid the high costs of application conversions, provides data security with encryption, and is scalable to meet your organizations growing needs. Your users will love how easy it is to use.

All made available to you on CherryRoad's own PRIVATE cloud.
