

SHARK™ UTM Remote Workspace

Free of Charge
for 90 days

CherryRoad is pleased to announce we can provide our proprietary **Shark UTM Remote Workspace Free of Charge for 90 days.**

Our Remote Workspace solution provides users with **secure, remote access to their servers and workstations.**

The software can be **rapidly deployed** and **requires no hardware** to be installed.

Remote Workspace Features:

- ✓ No client software to install - connect using a web browser
- ✓ Local or LDAP authentication
- ✓ Multi-factor authentication
- ✓ Secure connections from anywhere:
 - ✓ Remote desktop access for servers or employee workstations (Windows or macOS)
 - ✓ SSH access to devices for command line management
